Forschungsinteresse

I am a computer scientist and Professor of **Interaction Design and User Experience** with a particular fascination for **human-computer interaction** and **human-data interaction**.
My goal is to create **ubiquitous computing** and **mixed reality systems (AR/VR)** that enable individuals or teams to interactively **explore, experience, visualize, and make sense of complex data sets and data models**.
I have published over 80 cited articles (Google h-Index 32) including seven Best Paper or Honorable Mention Awards at leading human-computer interaction conferences.
I also have been PI of € 5.7 Mio or approx. US\$ 6.7 Mio in research grants.

Qualifikationen

User Experience and Interaction Design, Professor, University of Applied Sciences Upper Austria, School of Informatics, Communications and Media
2015 → 2020

Postdoc (Research Associate), University College London
2013 → 2015

Supervised by **Rogers, Yvonne**

Computer Science, Dr. rer. nat.
2007 → 2013

Supervised by **Reiterer, Harald**

Information Engineering, M.Sc., Universität Konstanz
2004 → 2007

Supervised by **Reiterer, Harald**

Information Engineering, B.Sc., Universität Konstanz
1999 → 2004

Supervised by **Reiterer, Harald**

Organisationszugehörigkeiten

Institut für Multimediale und Interaktive Systeme
Universität zu Lübeck
Lübeck, Deutschland
01.05.2024 → gegenwärtig
